

How the PARRiT Free Trial Works

Your organization receives **3 months of complimentary access** to the **full version of PARRiT** for evaluation purposes. During the trial, your team can explore how PARRiT helps manage, organize, search, navigate, and review building design standards in a more visual

and interactive way. At the end of the trial period, your organization may choose to switch to a **paid subscription**. Subscription options, pricing, and next steps can be reviewed during the trial period.

Sign Up is Easy

To request access to the free trial, send an email to:

jim.harper@parritapp.com

Please include the following information:

Required Information	Description
Organization Name	Name of the company or organization requesting the trial.
Primary Contact	Name, title, email, and phone number.
Users	Up to 3 to 4 users, including names and email addresses.
Preferred Admin User	Identify who should manage users and permissions.
Trial Objective	Briefly describe your organizations goals with using this application.

Once we receive the required information, the PARRiT team will review your request and set up access within approximately 1 to 2 business days.

Up to 3 to 4 Users	Trial access can be provided for a small internal team. If more than 4 users are requested, a minimal charge may apply during the trial period, based on the number of additional users and the type of user access requested.
Role-Based Access	Users can be assigned roles such as Admin, Editor, or Viewer.
Basic Onboarding Support	Support to help your team get started and understand key platform features.
Guided Trial & Support (3 Months)	<ul style="list-style-type: none"> Weekly live check-ins with a dedicated specialist. Ongoing email support and technical guidance. End-of-trial review with optimization recommendations. Personalized onboarding focused on delivering measurable value.

How Your Team Participates

Complete control on all Input such as standards and reference documentation.
Begin to organize platform content.
Upload and Provide product and supplier information.
Test workflows in real project scenarios.
Coordinate internal review and feedback.
Participate in trial milestone evaluations.

Optional support for data entry, standards migration, content cleanup, custom setup, vendor configuration, or expanded implementation can be reviewed separately as a professional service.

Security + Data Protection

PARRiT is hosted on secure AWS ([AWS Privacy Notice](#)), cloud infrastructure and is designed to ensure controlled access to client information.

All user accounts are protected by password-based authentication, with access restricted to authorized personnel only.

Industry-standard security measures are in place to safeguard data, providing users with a secure and reliable working environment.

Transitioning Beyond Your Trial

At the end of your 3-month free trial, your organization may choose to continue with a paid PARRiT subscription tailored to your specific requirements.

During the trial, we'll collaborate with your team to review subscription options, pricing, user access, support services, and implementation planning—ensuring a smooth transition from evaluation to full deployment.

Flexible.

Scalable.
